Alumni Fund Scholarship - Additional Information

- Scholarships are paid directly into your bank account and are normally paid in three instalments, one for each academic year.
- The donors who have made your scholarship possible will take a keen interest in your progression. At the end of each academic year you will be asked to provide a short report (one side of A4) outlining what you have used the money for, how it has benefited you, and a short message of thanks to the donors who made your scholarship possible. This is a requirement of you receiving the next instalment of your scholarship.
- As a scholarship recipient you are very closely involved with our fundraising work and you can help provide our Alumni and Friends with a great understanding of why they should make a donation to the Alumni Fund. By creating online profiles of our scholarship students, we show potential donors to the University, that it is very important to help fund scholarships for future students.
- If you withdraw from the University part or all of the scholarship may be repayable.
- If you take a period of leave of absence your scholarship may be suspended.
- Application forms may be shown to potential donors who are interested in certain circumstances.
- If you require any further information on your scholarship please contact **financialhelp@sheffield.ac.uk**
